WHERE COMMON SENSE IS STILL COMMON

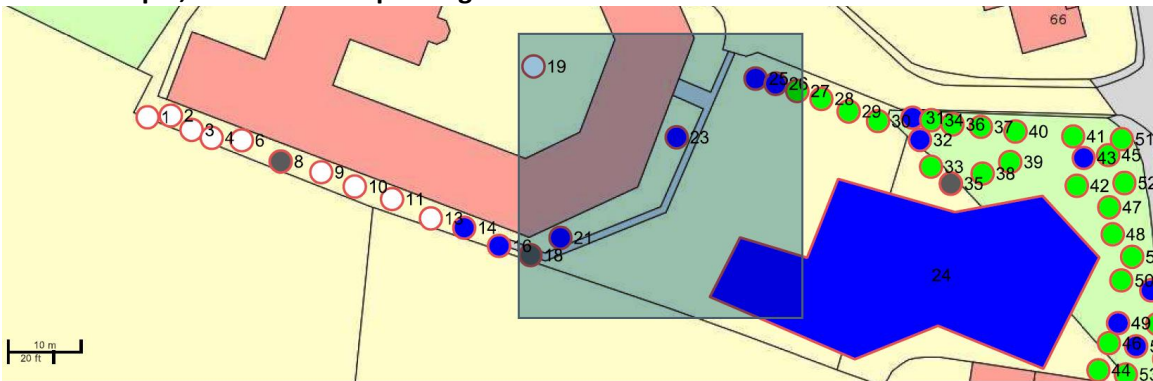

Tree Surveys with our own App developed with KaarbonTech

KaarbonTech
ASSET MANAGEMENT

We have developed an App with KaarbonTech which allows us to plot and report on individual trees directly onto a downloaded map from the registry. This gives us a much more professional and accurate report to BS standards to which our clients can have access. We're using a Samsung Tablet with GPS to download. So, if you need a precise report for insurance, tree reporting, surveys, Health & Safety or for any other reason, just call William on 07889 461 358 or email him on william@conservation-contractors.co.uk

As an example, this shows the plotting:

And this shows an example of the findings. You will see that where work is recommended, an estimate of time is automatically included.
