

PROVIDING SOLUTIONS FOR ALL YOUR TREE SURGERY, FENCING, VEGETATION MANAGEMENT AND WEED CONTROL REQUIREMENTS IN WILTSHIRE AND ACROSS THE SOUTH WEST

WHERE COMMON SENSE IS STILL COMMON

Cherry Picker/MEWP for Hire – 23m tracked (along with the 26m 4x4 truck and 14m Land Rover)

Cherry Pickers are elevated work platforms, also known as MEWPs (mobile elevated work platforms), boom lifts, articulating boom, man lift, basket crane or hydra-ladders. It's a platform or bucket at the end of a hydraulic lifting system.

Conservation Contractors have added a third MEWP to their fleet – a **Teupen LEO 23 GT**.

- **Ideal for quick, efficient jobs:** It is especially suited for jobsites that provide little space and require great working heights. It has a variable and quick multi-position stabilising system, 180° rotatable basket and flexible articulated and telescopic boom.
- **Compact and agile:** with its compact measurements of only 0,98 m passing width and 1,98 m height, the LEO 23GT can pass through almost every entrance.
- **Intuitive controls:** the control set has colour-coded functions and only four joysticks and there's a fixed control panel in the basket
- **High-performance stabiliser system:** safe positioning even with little space with its three different setup positions
- **Height and width adjustable tracks:** which permit narrowing and lowering the machine for passing entrances or widening the track footprint for more ground clearance and traction
- **Rotatable basket**
- **Dual power source:** the 230V electric motor for silent and zero-emission work inside and the powerful and robust Kubota diesel engine as standard.

Specification:

Working height max	23.0m
Side reach, max	11.20m
Platform capacity max	200kg
Length with platform	6.20m
Transport width x height	0.98mx 1.97m
Total weight	2990kg
Tracks, adjustable	Mechanical (standard); Hydraulic (optional)
Stabilisation system	Automatic, multi-position
Power source – standard	230V electric motor + diesel
Power source – optional	230V electric motor + battery
