

PROVIDING SOLUTIONS FOR ALL YOUR TREE SURGERY, FENCING, VEGETATION MANAGEMENT AND WEED CONTROL REQUIREMENTS IN WILTSHIRE AND ACROSS THE SOUTH WEST

WHERE COMMON SENSE IS STILL COMMON

## Cherry Picker/MEWP for Hire – Spiderlift 23m tracked – strong, reliable, lightweight (along with the 26m 4x4 truck and 14m Land Rover)

Cherry Pickers are elevated work platforms, also known as MEWPs (mobile elevated work platforms), aerial platforms, boom lifts, articulating boom, man lift, basket crane or hydra-ladders. It's a platform or bucket at the end of a hydraulic lifting system.

Conservation Contractors have just replaced their 23m MEWP with a new tracked Spider MEWP from CMC which has a working height of 23m coupled with unchallenged outreach for a 23M machine making this towable Spiderlift a force to be reckoned with.

The excellent balance between weight, strength and working height makes it the most compact platform with the longest outreach in its class. Equipped with the Self Control System by CMC for automatic control of stabilisation, manoeuvring speed, automatic closure of the aerial part and collision prevention.

### Specifications

- Working height: 23m
- Horizontal Outreach: 12.4M
- Lifting Capacity: 200KG
- Power Supply: 110V & 240V
- Diesel or Lithium
- Weight: 3000KG
- Tracking Width: 0.88M
- Single Doorway Access
- Towable
